D7.2 Annual Report Year 1

Summary

D7.2 is a deliverable of WP7 which consists of all management and coordination tasks of the project. Specific objectives are to coordinate the various activities of the project, providing oversight of technical and financial activities, manage communication within the research group and external partners ensuring effective collaboration, ensure that reporting is performed on a periodic basis according to HFRI guidelines and anticipate problems, manage risks and recommend corrective actions as necessary. In the context of the WP7 objectives, D7.2 reports on the research and other activities of the project from M1 to M18. Per WP, a summary of the work progress is provided along with the main results, milestones, meetings, dissemination and communication activities, as well as reporting, technical & financial issues. Furthermore, the main delays and difficulties faced during the first 18 months of the project are presented.

1

The research project was supported by the Hellenic Foundation for Research and Innovation (H.F.R.I.) under the "1st Call for H.F.R.I. Research Projects to support Faculty Members & Researchers and the Procurement of High-and the procurement of high-cost research equipment grant" (Project Number: 50).
